For Work That Matters™

2D/3D indicate and layout in one effective solution

Thanks to the detachable positioning sensors and high-resolution rugged tablet, MC-Mobile triples the effectiveness of your excavator operators. With a flexible format and versatile configuration, MC-Mobile provides the capabilities and functionality that works for your operation.

This 3-in-1 solution gives the operator the ability to create or update a project plan, stake out or measure key points and seamlessly move to the machine to begin construction.

MC-Mobile is a scalable 2D/3D indicate solution measuring, designing and building the simple to the complex job site.

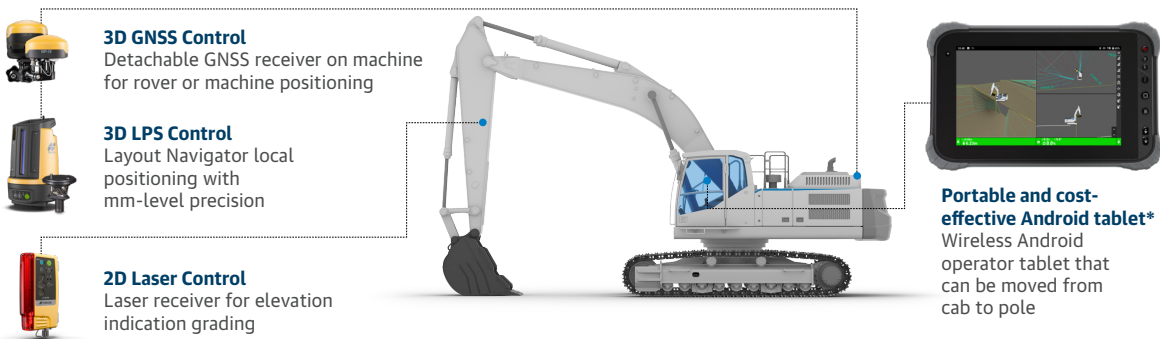

Upgrade to a fully automatic system with our MC-Max solution for excavators.

» 3-in-1 system

- Measure
- Design
- Build with machine control

» Ideal for

- Simple surfaces
- Complex contour
- Trenching slope work
- Embankments
- Deep cuts
- Blind excavation

3D GNSS Control
Detachable GNSS receiver on machine for rover or machine positioning

3D LPS Control
Layout Navigator local positioning with mm-level precision

2D Laser Control
Laser receiver for elevation indication grading

Portable and cost-effective Android tablet*
Wireless Android operator tablet that can be moved from cab to pole

- Positioning options to suit your needs
- Utilize machine prism or GNSS receiver to layout, check and build your project
- 2D configuration can grow with you as your projects grow more complex
- Leverage the power of machine control for improved productivity and greater accuracy
- Self-perform measurements, digital designs and site verification
- Do it right the first time
