(855) 289-1772

training@topconsolutions.com

In this workshop, we will focus on the process of stitching together point cloud data and provide tips and tricks for those troublesome scans that just do not want to come together. From there, we will finish up by exporting the scans as RCP or RCS formats for import into various Autodesk Products.

Prerequisite: A working knowledge of Microsoft Windows is recommended.

Session Length: 4 hours

- Overview of Recap and Process Workflow
- Importing Individual Scans
- Registering Scan data
- Indexing Scans
- Navigating the point cloud
- Editing the Point Cloud

- Adding Control Points
- Measuring, Annotating, and Point Cloud Marking-up
- Exporting/Sharing the Unified Point Cloud for Design
- Q&A
